Brief Update on Annual VTrans Project Prioritization

The final list for project prioritization should be coming out soon. Two bridges noted in the TAC assessment need more information, one in Cambridge and one in Wolcott. The Cadys Falls bridge is on the list. We will be able to carry over the list from this year to next. We will not have to start from scratch as in the past.

MRGP Web Portal Data Management Training

Rob continued the training on accessing the data in the MRGP Regulatory Portal. The focus was on culverts and catch basins. Rob offered help to any community entering data into the portal.
